

**(B) Amendments to the Specification**

Please amend the last full paragraph on page 26 of the Specification as indicated below.

The example method embodiments are described for the purpose of teaching the broad aspects of the invention only. ~~Systems, apparatuses, and the seismic product of the methods are also described and claimed as the present invention. For further example embodiment of the present invention, readers are directed to exhibits A and B attached, incorporated, and made a part of this patent application in compliance with 37 CFR 1.91. Exhibit A is an unpublished abstract describing further example embodiments of the present invention. Exhibit B is also an unpublished abstract describing further example embodiments of the present invention.~~ While the invention has been described with respect to a limited number of embodiments, those skilled in the art, having benefit of this disclosure, will appreciate that other embodiments can be devised which do not depart from the scope of the invention as disclosed herein. Accordingly, the scope of the invention should be limited only by the attached claims.
